Gained hands-on, practical skills in React. Course provider - Codecademy

INTERESTS

⭐ **Coding Challenges**
Love solving complex problems and challenges through coding

💙 **Green Architecture**
Passionate about environmental conservation and sustainable architecture

PROJECTS

eCommerce Website

📅 2024   📍 karachi

Built a responsive eCommerce Website platform with Next js and tailwind Css.

- Built with **Next.js** and **Tailwind CSS**, the website offers a modern, fast, and responsive user experience across all devices, from mobile to desktop.
- The **product listings** feature a clean grid layout with filtering and sorting options, making it easy for users to browse and discover products based on categories, price, and ratings.
- Each **product page** provides detailed information, including high-quality images, product descriptions, and an "Add to Cart" button for easy purchase initiation.
- The **shopping cart** allows users to manage their selections, adjust quantities, and see real-time price updates, ensuring a smooth shopping experience.

Music Player

📅 2025   📍 Karachi

Developed a site with Html Css and JavaScript.

- The player features **play**, **pause**, **skip**, and **volume control** functionalities, giving users complete control over their listening experience.
- The user interface is styled with **CSS** for a clean and modern look, ensuring it's visually appealing and easy to navigate.
- Built with **JavaScript**, the player supports dynamic interactions, including playlist management, track switching, and playback controls
